Project Id (column1 of <a href="http://goo.gl/gmoYrk">http://goo.gl/gmoYrk</a>): 1
Project Name (column2 of <a href="http://goo.gl/gmoYrk">http://goo.gl/gmoYrk</a>): MarkParser

Member	Last name	First name	github id	email
1	Kadapagunta	Bhashwanth	bhashwanth	bkadapa@ncsu.edu
2	Arora	Rohit	rarora4	rarora4@ncsu.edu
3	Mehta	Yatish	yatish27	yjmehta@ncsu.edu
4	Utsav	Kumar	kumar-utsav	kutsav@ncsu.edu

In the following, column 0 is your score column 1 will come from the tutor

0	1	Score	What		
1		1	From http://goo.gl/gmoYrk, there is a link to the report readme.		
1		1	Has section "1.Collection" describing collection tricks		
1		1	Has section "2.Anonymization" describing anonymization tricks		
1		1	Has section "3.Tables" describing tricks for making your tables		
1		1	Has section "Data" describing how much data was collected		
1		1	Has section "Data samples" : snippets of collected data, and Github links to the real stuff		
3		3	Has section "Feature detection": 10-20 detectors, described, plus links to code		
2		2	Has section "Feature detection results": what found when feature detectors applied		
3		3	Has section "Bad smells detector": scripts used, described, plus links to code		
2		2	Has section "Bad smells results": what found when the bad smell detector was applied		
2		2	Has section "Early warning": scripts used, described, plus links to code		
4		4	Has section "Early warning results": what found when the early warning detector was applied		

Final score: round(score\*ticks/1.5)); so max = 15 (out of 10)
